# **HAMLET**

CLASSICAL /MISU Classic luminaire for streets and historical centers, parks and squares, residential and pedestrian areas.

ARQUILED presents classic luminaire HAMLET, ideal to illuminate streets, squares and parks by preserving at the same time the space's identity.

HAMLET luminaire combines LED technology efficiency and a traditional aesthetics with a contemporary twist, incorporating resistant materials that provide a high level of protection and a long lifetime.

Ideal for those who wish to preserve the heritage and to take on a commitment to the future, HAMLET is presented as the most rational and balanced response.

### **DESIGN**

HAMLET luminaire combines a classic and timeless design with the latest LED technology, turning it into the ideal solution to enrich spaces as historical centers or contemporary architecture zones. An elegant solution that values our cities while enhancing public safety and security.

#### **EFFICIENCY**

HAMLET is an efficient lighting tool, with robust materials and a LED engine IP66, in order to maintain the initial performance as long as possible, during its lifetime.

#### **APPLICATION**

- Streets and historical centres
- Parks and squares
- Residential and pedestrian areas
- Parking lots

### **BENEFITS**

- Perfect integration in classical or contemporary environments
- · Spaces' valuation
- · Low energy consumption
- Easy to maintain
- · Robustness and long lifetime

CLASSIC VMISU

Models	HAMLET 20   30   40   60
Power Consumption <sup>(1)</sup>	9 - 63 W (depending on configuration)
Luminous Flux <sup>(1)</sup>	811 - 5.799 lm
Luminous Efficiency	Up to 97 lm/W

Housing	Zinc-plated steel and aluminum
Product finishing	Thermo lacquering and anodizing
Product color	Green RAL 6009
	Jet black RAL 9005*
Housing diffuser	Textured, clear or opal polycarbonate Without diffuser
Optical module	PMMA
Correlated Color Temperature (CCT)	3 000 K / 4 000 K*
Lumen maintenance at 100 000h	> 95%(2)
Color Rendering Index (CRI)	≥ 70
Ingress Protection (IEC – EN 60598)	LED engine and driver: IP66
	Connectors: IP54
Mechanical Impacts Protection (IEC – EN 62262)	IK08
Nominal voltage	230 V / 50 - 60 Hz*
Surge overvoltage protection (EN 61000-4-5)	4 kV / 10 kV
Electrical class	Class I*
Mounting	Post-top version: fixed on male female 3/4" gas** Fixed suspended version: on male female 3/4" gas**

The initial flux and power consumption of the luminaire are indicative values and valid for @tj=25°C. The real flux output of the luminaire depends on specific conditions, such as temperature and may vary with specific configurations. The values are subject to tolerances in technology.

<sup>(2)</sup> In accordance with IES LM-80 - TM-21 \* Other options available on request.

<sup>\*\*</sup> Requires fixing accessory.

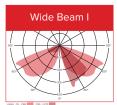

## **HAMLET**

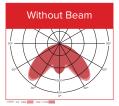

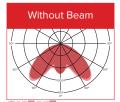

Note: Other options available on request.

### ECCOS single

Luminaire's integrated single control system that allows to define savings profiles according to predefined time intervals and luminous flux levels.

### ECCOS street

Luminaire's integrated control system that commands the luminous flux through a micro-cut system.

### ECCOS ctr

Integrated management system (bidirectional) for street lighting, in SaaS mode, in a external control via LoRaWAN®, which allows to remotely manage the luminaires through a web application.
